Professional Summary

Entry-level Software Developer and recent Computer Science graduate with hands-on experience in Java, Spring Boot, and full-stack web development. Skilled in Object-Oriented Programming, Software Development Life Cycle (SDLC), REST API integration, relational databases, and application testing/debugging. Proven ability to design and deploy secure, scalable web applications using the MVC architecture. Seeking an entry-level Software Development Engineer role to apply strong technical foundations and contribute to high-quality, production-ready software.

Technical Skills

- **Programming Languages:** Java (Core & Advanced), JavaScript, SQL
- **Frameworks:** Spring Boot, Hibernate, Servlets, JSP
- **Web Technologies:** HTML, CSS, JDBC, REST APIs
- **Databases:** MySQL
- **Tools & Platforms:** Git, GitHub, VS Code, Eclipse, Apache Tomcat
- **Concepts:** Object-Oriented Programming (OOP), SDLC, MVC Architecture, DAO Pattern, Unit Testing, Debugging, Agile Methodology

Experience

Java Full Stack Web Development Intern

Tap Academy

Remote

Internship

- Built and integrated full-stack web application components using Java, HTML, CSS, JavaScript, SQL, JDBC, JSP, and Servlets
- Applied Object-Oriented Programming and MVC architecture principles to design maintainable, modular application code
- Implemented database connectivity and CRUD operations, improving data handling accuracy across application modules
- Tested and debugged application features, strengthening problem-solving skills and adherence to software development best practices

Projects

Fashion Store – E-Commerce Web Application

Java, JSP, Servlets, JDBC, MySQL

- Developed a full-stack e-commerce platform enabling users to browse, filter, and purchase fashion products
- Implemented secure user authentication, category-based filtering, shopping cart, and order management modules
- Integrated MySQL database via JDBC following MVC architecture for scalable, maintainable code structure
- Designed responsive front-end interfaces using HTML, CSS, and JavaScript; deployed the application for public access

Food Delivery Web Application

Java, JSP, Servlets, JDBC, MySQL

- Built a web-based food ordering platform supporting restaurant search, dynamic menus, and order history tracking
- Implemented user authentication, shopping cart, and checkout flow to streamline the ordering process
- Designed DAO-based CRUD operations with MySQL integration via JDBC for reliable data management
- Deployed the application using Apache Tomcat with responsive JSP-based interfaces

Certifications

- Full Stack Web Development – Tap Academy

Education

Sreenivasa Institute of Technology and Management Studies

2022 – 2026

B.Tech in Computer Science and Engineering

CGPA: 7.58

Sri Vignana Sudha Junior College

2020 – 2022

Mathematics, Physics, Chemistry (MPC)

Percentage: 61.7%

Sri Viswam Public School

2020

Secondary School Certificate (SSC)

CGPA: 10
